

We are very proud to announce that we have received the highest possible ratings from both Charity Navigator and GuideStar – which places us among the elite non-profit organizations in the USA. Our overhead is typically under 5% which means that 95% of funds raised went toward programming! We are committed to using your gifts efficiently and effectively.

In addition, our Center in Israel received the Midot Seal of Effectiveness, which is only awarded after a thorough examination of our organization’s planning and performance abilities, measurement of our activities and processes, financial management, human resources, and social impact.

We are the only accredited Guide Dog training facility in Israel – or the entire Middle East! We have also been accepted into the Assistance Dogs International – an organization committed to standardizing accreditation of Service Animals.
